

Introduction

Use of this product is not intended to, and does not, ensure that the motorist and any passenger will not be involved in a traffic accident. It is only intended to alert the motorist that an emergency or service vehicle equipped with a CODE 3, Strobe (Opticom or Tomar Preemption System) or Cobra Safety Alert Transmitter is in the area as defined by the range of the product. Please call your local Fire/Police department to verify if coverage exists in your area. Motorists are expected to exercise all due caution while using this product, and to observe and follow all applicable traffic laws.*

*Opticom is a registered trademark of 3M Corporation

Introduction

Congratulations! You have just purchased the most sophisticated RADAR/LASER DETECTOR available today. This booklet contains instructions and information designed so that you will be able to understand how the Cobra ESD™-9200 works and how radar and (LIDAR) laser are used. Enjoy your Cobra ESD-9200 Radar/Laser Detector and **drive safely.**

Federal Law Governing Use of Radar Detectors

It is not against Federal Law to receive radar transmissions on your COBRA Radar Detector. The Communications Act of 1934 guarantees your right to receive radio transmissions on any frequency. Local laws that contravene the Communications Act of 1934, while illegal, may be enforced by your local law enforcement officials until and unless they are prohibited from doing so by Federal Court action.

WARNING: Before leaving your car, make sure that you conceal your radar detector. This will reduce the possibility of break-in and theft of your unit.

Included with your ESD-9200

1. Windshield Bracket
2. Hook and Loop Material
3. Power Cord

If You Think You Need Service

For technical assistance, please call our Automated Help Desk which can assist you by answering the most frequently asked questions about Cobra products.

(773) 889-3087

24 hours a day, 7 days a week.

A Consumer Service Representative can be reached through this same number 8:00 am - 8:00 pm, Monday through Friday, CST.

Technical assistance is also available on-line in the Frequently Asked Questions (FAQ) section at www.cobraelec.com or by e-mail to productinfo@cobraelec.com

If you think you need service call 1.773.889.3087

"If your product should require factory service please call Cobra first before sending your unit in. This will ensure the fastest turn-around time on your repair."

You may be asked to send your unit to the Cobra factory. It will be necessary to furnish the following in order to have the product serviced and returned.

1. For Warranty Repair include some form of proof-of-purchase, such as a mechanical reproduction or carbon or a sales receipt. If you send the original receipt it cannot be returned.
2. Send the entire product.
3. Enclose a description of what is happening with the unit. Include a typed or clearly print name and address of where the unit is to be returned.
4. Pack unit securely to prevent damage in transit. If possible, use the original packing material.
5. Ship prepaid and insured by way of a traceable carrier such as United Parcel Service (UPS) or First Class Mail to: Cobra Factory Service, Cobra Electronics Corporation, 6500 W. Cortland St., Chicago, IL 60707.
6. If the unit is in warranty, upon receipt of your unit it will either be repaired or exchanged depending on the model. Please allow approximately 3 to 4 weeks before contacting us for status. If the unit is out of warranty a letter will automatically be sent informing you of the repair charge or replacement charge. If you have any questions, please call 1.773.889.3087 for assistance.

Features of This Product

- Safety Alert® Traffic Warning System
- Strobe Alert™
- Voice Alert
- Separate Visual and Audio Alarms
- Laser Eye 360° Detection
- VG-2 Undetectable
- Auto and Manual Muting
- 3 Level Dim Button
- Audio Jack
- Superior Audio Volume
- Adjustable Windshield Mounting Bracket

Installation

Location

Location

Selecting the proper location to mount the Cobra ESD-9200 is very important for optimum performance. Both radar and laser transmissions pass through glass but not through other objects. For this reason the Cobra ESD-9200 lenses must not be blocked. The Laser Eye should have a view of the rear window to take advantage of its 360° detection capability. It is best to locate your detector as low on the front windshield as possible.

Examples of metal in the windshield area that can block or weaken incoming radar/laser signals:

1. Windshield wiper blades.
2. Mirrored sun screens.
3. Regular tinted glass does not affect radar reception, although the darker tint at the top of the tinted windshield prevents laser light from penetrating.
4. Heated windshields, currently available as an option for some Ford® (Instaclear) and GM® (Electriclear vehicles act as an impenetrable barrier to radar signals). If in doubt, check with your dealer to see if this applies to your vehicle.

2

Windshield Mounting

1 Attach cups to bracket.

2 Attach bracket to windshield.

3 Attach detector to bracket.

4 Bend bracket for correct detection angle (if needed). Do not use the ESD-9200 to bend bracket.

5 Plug power cord into detector.

6 Plug power cord into cigarette lighter.

Installation

Windshield Mounting

3

Installation

Quick Start

Dash Mounting

Note

It will be easy for you to remove and reinstall your Cobra ESD-9200 detector at any time using this hook and loop material on the dashboard.

Remember: Without the means to adjust the angle of the detector (when mounted as above), be sure you that your Cobra ESD-9200 has a level, clear view of the road before you attach the hook and loop material.

Dash Mounting

- 1 Peel protective paper off one side of hook and loop material.

- 2 Place on dash.

- 3 Peel top paper off.

- 4 Place detector on hook and loop pad.

- 5 Plug power cord into detector.

- 6 Plug power cord into cigarette lighter.

Turn On and Adjust Volume

- 1 Rotate ON-OFF Volume Control to left (away from you). An audible "tone" will indicate the unit is on. PWR LED on front of unit is illuminated.

Turn On and Adjust Volume

Note

For your convenience Display Dim, City/Highway, and Muting mode settings are retained in memory even when the power is unplugged.

Quick Start

Set Display Brightness

LED Displays

Note

A three position Dim mode is provided for dusk or night driving (please see Dim Button, page 14 for details).

Set Display Brightness

Select from three levels of LED brightness for your Cobra ESD-9200 display: Normal, Dim and Dark. The ESD-9200's state-of-the-art LEDs present clear alerts even in sunlight.

- 1 Press and release  Dim button to select normal setting. Press and release  Dim button twice to select Dim setting. Press and release Dim button a third time to select Dark setting.

Quick Start

Set Highway/City Mode

Set Highway/City Mode

City

For urban driving—reduces number of X-Band audible alerts.

- 1 Press and release  CITY button.
 CITY LED will illuminate orange while in City mode

Highway

For all other driving.

Quick Start

Operation

Set Muting Mode

Set Muting Mode

Auto Muting

Automatically reduces volume of alert in progress after 3 seconds.

Manual Muting

- 1 Press and release  MUTE button to reduce volume of alert in progress.

To Switch Between Modes

- 1 Press and release  MUTE Button when no signal is being received.

One "beep" = Mute

Two "beep" = Auto Mute

Turning On Your ESD-9200

- 1 Plug power cord into detector.

- 2 Plug power cord into cigarette lighter.

- 3 Rotate ON-OFF Volume Control to the left (away from you). An audible "tone" will indicate the unit is on and the  PWR LED on the front of the unit will illuminate orange.

ON mode

Turning On Your ESD-9200

Operation

Dim Button

Dim Button

You may select from three levels of brightness for your Cobra ESD-9200 display: Normal, Dim, and Dark.

- 1 Press and release **DIM** button to reduce the LED display brightness to Dim. A single beep confirms dim led brightness.

- 2 Press and release **DIM** button again to turn LED display off. A single beep confirms no LED display. The power LED will stay on dim.

- 3 Press and release **DIM** button a third time to return led display to Normal. A double beep confirms normal LED brightness.

Note

Normal = "Beep-Beep"
Dim = "Beep"
Dark = "Beep"

Note

The ESD-9200 will retain the chosen mode while OFF.

Operation

Highway/City Mode

Highway/City Mode

The Highway/City function is controlled by a 2-step button. The Highway mode is automatically engaged when the unit is powered up. In the City mode, false radar alerts will be reduced.

To engage City Mode:

- 1 Press and release **CITY** button and the **CITY** LED on the front of the unit will illuminate red. A single beep confirms City mode. The X LED will be visible showing you are receiving a signal.

CITY LED will illuminate orange while in CITY mode.

To reactivate the Highway Mode:

- 1 Press and release **CITY** button again. A double beep confirms Highway Mode.

Note

Use City Mode in or near cities where there are many sources of false radar signals such as microwave relay towers and automatic door openers. This will filter out weak signals.

Note

City = "Beep"
Highway = "Beep-Beep"

Note

The unit will announce "Highway" or "City" in Voice Mode.

Note

The ESD-9200 will retain the chosen mode while OFF.

Operation

Muting Mode

Note

Mute="Beep"
OR
Auto Mute="Beep-Beep"

Note

In either mode the next alarm will begin with normal volume. The ESD-9200 will retain the chosen mode while OFF.

Muting Mode

The ESD-9200 offers two Mute Modes; Auto and Manual. To switch between these modes:

Auto Mode

- 1 Press and release  MUTE button when no signal is being received. In Auto mode, the alarm will be reduced in volume after three seconds.

Manual Mode

- 1 Press and release  MUTE button to reduce volume.

Operation

Voice/Tone Settings

- 1 Press and hold  MUTE button for two seconds to change between Voice and Tone Alarms.

Memory Set

Remembers settings of Dim, Muting and City/Highway modes and Voice vs. Tone.

Auxiliary Audio Jack

Use to connect an external speaker to your Cobra ESD-9200 in environments with high ambient noise levels. The internal speaker will be disconnected. The audio output will be voice or tone depending on your selection.

Tone Alarm And Voice Alert

Memory Set

Auxiliary Audio Jack

Detection

Begin Band Detection

Band Detection

This detector is designed to detect X, K, Superwide Ka Band Radar, Laser (including LTI 20-20*, Ultra Lyte* and ProLaser* technologies), VG-2, Safety Alert and Strobe Alert* signals.

*360° Detection

Audible Alarm Speaker and Voice Alert

Audible Alarm Speaker

A different alert tone will sound for X, K, Ka, Laser (plus a distinctly different tone for each of the three laser signals: LTI 20-20, Ultra Lyte and ProLaser), VG-2, and Safety and Strobe Alert signals.

Voice Alert

The ESD-9200 will also announce the reception of these signals with the statement, "Be careful...X Alert, K Alert, Ka Alert, Laser Alert, VG-2 Alert, Emergency Vehicle Approaching, Road Hazard Ahead, Train Approaching and Emergency Vehicle Approaching."

Detection

Radar

Radar

The display will show the band (X,K/Ka). The signal strength will first be indicated by the band being illuminated, then the band plus \rightarrow , finally the band plus \rightleftharpoons and \equiv will be illuminated. At the same time the frequency of the beeps will increase.

Instant-On Detection

The Cobra ESD-9200 is also designed to detect Instant-on speed monitoring signals. **Immediate action is required when warning is given.**

VG-2 Undetectable

The Cobra ESD-9200 is undetectable by police VG-2 detection devices. It will alert you when one is in use near your vehicle. During this time, the unit is still on full alert and able to detect other signals.

The **V** VG-2 LED on the front of the unit will illuminate yellow.

VG-2 Alert

Note

The display does not indicate signal strength.

Detection

Safety Alert® Traffic Warning System and Strobe Alert™

Safety Alert® Traffic Warning System and Strobe Alert™

Indicator "W" is illuminated.

Laser Detection with 360° Laser Eye

Note

The display does not indicate signal strength.

Laser Eye 360° Detection

Indicator "L" is illuminated.

Laser will trigger 3 distinct audible signals; one each for LTI 20-20, Ultra Lyte and ProLaser.

Detection

Radar/VG-2/Laser Alerts

Radar/VG-2/Laser Alerts

| Type of Audible Signal | Interpretation and Response |
|---|--|
| Your COBRA ESD-9200 starts to signal slowly, then increases in rate very rapidly. | Most likely police radar. FULL ALERT. |
| Your COBRA ESD-9200 signals just once. | Most likely a false source, or could be pulsed radar. Exercise Caution. |
| Very fast signal rate instantly. | Radar or VG-2 close by has been suddenly switched on. FULL ALERT. |
| Slow signal rate as you approach hill or bridge. Sharp increase in signal rate as you reach hill or bridge. | Most likely police radar on other side of hill or bridge. FULL ALERT. |
| Short-term, weak signaling; series of such signals. | Most likely a false radar source. Exercise Caution. |
| Laser will trigger 3 distinct audible signals; one each for LTI 20-20, Ultra Lyte and ProLaser. | Use Full Caution. There are no false laser signals. |
| Safety Alert and Strobe Alert have their own unique "European Emergency" signal. | An emergency vehicle is approaching, you are in the vicinity of a railroad crossing, or you are approaching a road hazard (construction site, accident scene, etc.). |

Detection

Facts About Safety Alert® Traffic Warning System

Facts About the Safety Alert® Traffic Warning System

FCC-approved Safety Alert Transmitters emit microwave radar signals to indicate the presence of a safety-related concern. Depending on the frequency of these signals, as set on the transmitter, the outgoing signal can indicate whether the transmitter is on a speeding emergency vehicle or train, or at a stationary road hazard location. These microwave signals are located in the K-band and as a result, any radar detector which detects K-band radar will detect these Safety signals as standard K-band radar alerts. However, unlike a standard radar detector, your Cobra ESD-9000 is designed to differentiate between a standard K-band alert and a Safety Alert warning. Safety technology is relatively new so the number of transmitters in operation is still growing. You may not receive Safety Alert on a daily basis and should not be surprised to encounter some emergency vehicles, road hazards or trains not yet equipped with these transmitters, therefore failing to provide a signal. As Safety Transmitters become more prevalent (the number of operating transmitters is growing every day), these Safety Alerts will become more common. The Safety Alert Transmitter is in use in all 50 states in limited quantities.

Note

Strobe Alert™ is available in over 1,000 cities and works with Tomar and Opticom systems. Call your local Fire/Police department for your area coverage or area in which you will be traveling.

Facts About Strobe Alert™

Alerts motorists to over 50,000 emergency vehicles equipped with strobe transmitters that activate red lights at traffic intersections in emergency high speed situations.

Detection

Radar Frequencies

Radar Frequencies

There are now three frequencies that have been approved by the FCC (Federal Communications Commission) for use in speed monitoring equipment. They are:

- X Band (10.525 GHz), K Band (24.150 GHz)
- Ka Band (33.400-36.000 GHz)

Your Cobra ESD-9200 can detect signals in all three radar bands including photo radar and STALKER radar which use the Ka band, and Cobra's Safety Alert signals on the K band.

Facts About LIDAR (Laser)

Facts About LIDAR (Laser)

What is LIDAR?

LIDAR stands for Light Detection And Ranging. While everyone refers to it as LASER the correct name is LIDAR.

How does LIDAR work?

LIDAR operates a lot like RADAR. Like RADAR, it spreads out. Not as quickly, but it does spread, as shown on the diagram below.

Detection

Specifications

Facts About LIDAR (Laser)

Does weather have any effect on LIDAR?

Yes, rain, snow, smoke, fog, and airborne dust particles will all reduce the effective range, and if sufficiently dense, may prevent its operation.

Can LIDAR operate through glass?

No, LIDAR guns cannot obtain readings through any glass. But the laser pulse can be received through glass to easily and quickly trigger a laser detector's alarm.

Can LIDAR operate while moving?

No, since LIDAR is line of sight, an officer cannot drive, aim, and shoot while driving.

Is a LIDAR DETECTOR legal to use?

Yes, it is legal in all 50 states.

Maintenance

Maintenance

Your COBRA ESD-9200 RADAR/LASER DETECTOR will give you years of trouble-free service with minimum maintenance.

Replacing Power Cord Fuse

Unscrew cap of cigarette lighter adapter and remove fuse. Replace with 1-ampere fuse only.

Troubleshooting

If your COBRA LASER DETECTOR ESD-9200 isn't operating, we suggest you make the following checks:

1. Is the power cord properly connected?
2. Is the fuse OK?
3. Is the cigarette lighter socket clean and free from corrosion?

GENERAL SPECIFICATIONS

A. FREQUENCIES

- | | |
|--------------------|-------------------------|
| 1. X BAND | 10.525 GHz ± 50 MHz |
| 2. K BAND | 24.150 GHz ± 100 MHz |
| 3. Ka BAND | 33.4 - 36.0 GHz |
| 4. VG-2 | 11.4 GHz - 11.7 GHz |

Specifications

Limited One Year Warranty

Optional Accessories

Cobra Electronics Corporation

6500 West Cortland Street
Chicago, Illinois 60707
www.cobraelec.com

COBRA ELECTRONICS CORPORATION warrants that its COBRA 9 Band Radar/Laser Detectors, and the component parts thereof, will be free of defects in workmanship and materials for period of one (1) year from the date of first consumer purchase. This warranty may be enforced by the first consumer purchaser, provided that the product is utilized within the U.S.A.

COBRA will, without charge, repair or replace, at its option, defective 9 Band Radar/Laser Detectors, products or component parts upon delivery to the COBRA factory Service Department, accompanied by proof of the date of first consumer purchase, such as a duplicated copy of a sales receipt.

You must pay any initial shipping charges required to ship the product for warranty service, but the return charges will be at Cobra's expense, if the product is repaired or replaced under warranty.

Exclusions: This limited warranty does not apply; 1) to any product damaged by accident; 2) in the event of misuse or abuse of the product or as a result of unauthorized alterations or repairs; 3) if the serial number has been altered, defaced or removed; 4) if the owner of the product resides outside the U.S.A.

All implied warranties, including warranties of merchantability and fitness for a particular purpose are limited in duration to the length of this warranty.

COBRA shall not be liable for any incidental, consequential or other damages; including, without limitation, damages resulting from loss of use or cost of installation.

Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.
